

# PRODUCT PROFILE

PRINCIPAL	PLATFORMS	SEGMENT	APPLICATION
 	<p>Rebel : Cell Media analysis at -Line</p> <p>Zip Chip : Capillary electrophoresis (CE) separation and electrospray ionization (ESI)</p>	<p>Upstream : Media Screening , R&amp;D QC , MSAT &amp; Productions</p> <p>Mass Spec : mAb Therapeutics Other Non mAb proteins Amino acid analysis Small molecule analysis Oligonucleotide analysis</p>	<p>Media Selection &amp; Optimization, Spent Media Analysis Measure : All Vitamins , All Amino acids &amp; Amines and others - All in 6 min</p> <p>Charge variant Analysis Intact mass Reduced or Subunit Analysis of mAb Peptide mapping ZIP CHIP Interface Suitable only for Sciex, Thermo &amp; Bruker Mass Spec</p>
 	<p>Cellavista High Throughput &amp; Nyone Medium Throughput Cell Imaging System &amp; Automation</p>	<p>Monoclonality Cell Line Development (CLD) Cellular Research Drug Discovery Cell Biology</p>	<p>Single Cell Cloning (SCC), High Resolution Cloning as well as Fluorescence activated SCC (FASCC) Trypan Blue Viability Count Suspension Cell Count, Confluence Measurement and Colony Detection CRISPR/Cas Gene Editing</p>
 	<p>Mass Photometry Two MP, Two MP Auto SamuxMP</p>	<p>Single Molecule Biophysics, Protein Lab, AAVs , Protac, Vaccines</p>	<p>Sample characterisation Protein oligomerisation Biomolecular interactions Macromolecular assemblies</p>
	<p>Biotechnology &amp; Biologicals</p>	<p>Biotech APIs &amp; Speciality Enzymes</p>	<p><b>APIs</b> L - Asparaginase Bulk Pegaspargase Bulk Sodium Hyaluronate Bulk</p> <p><b>Speciality Enzymes</b> Provinase Carboxypeptidase B PNGase F Trypsin</p>

PRINCIPAL	PLATFORMS	SEGMENT	APPLICATION
 	SLAB , KX -2 , KX-2 Rails Collaborative Laboratory Robot.	Lab Automation	96 wellplates, 384 well plate, Chips Robotic Arm
 	Wet Chemistry Analysers; Discrete Analysers & Continuous Flow Analysers (CFA)	Environment, Water Testing Lab, Coastal Labs	Nitrite, Nitrate, Ammonia, Orthophosphate, Silica, Total Nitrogen Total Phosphorous More than 50 Chemical Parameters
 	Dynamica Velocity 14,000 to 30,000 RPM Refrigerated Centrifuge Various choice of Fixed Angle Rotors, Swing Bucket Rotors , adaptors, accessories and spare parts to above centrifuges	Cell Biology ,Molecular Biology, Next Generation Sequencing Microbiology, Bioprocessing R&D Bioprocessing Food	Separation of mixtures with close densities. Separate immiscible liquids. Sediment suspended solids. Separation of blood. Separation insoluble particles
 	Contactless Dispensing Certus Flex 5 /8 channels Straight or 22° angled Flushing, Filling, Purging and Draining	Drug Discovery, HTS (High Throughput Screening) Compound Management Biochemical and Cell Based Assays, Cancer Research, Protein Crystallography	Dispensing of substances with different physical properties. Liquids : Large molecules High & Low Viscosity Aqueous buffers, alcohols, DMSO, solvents, detergents, Cells, DNA / RNA, proteins or oils
Other Products	Also General lab Items, Freeze Dryers , Rotary Evaporator, UV VIS Spectrophotometers, Turnkey Consultancy & Procurement Solutions	Chemical Engineering Fermentation Lab, Upstream & Downstream Processing	Sophisticated Analytical Labs for Academic Industries & CRO

## Registered Office

### Biobeam Scientific Instrument LLP

18-2, 4th Street, Gokulam Colony,  
P.N. Pudur, Coimbatore - 641 041, Tamil Nadu, India
